TURDAY,

SEPT. 1, 1894 WASHINGTON LETTER.

Mr. Cleveland Backs Down-Mr. Tay lor and the Civil Service Commis-

sion-Senator Hill's Complaints. (From Our Regular Correspondent.)

Washington, Aug. 27, '94.
Mr. Cleveland's widely advertised back bone has apparently turned to jelly. The tariff bill which he so bitterly abused is to be the law of the land at midnight to-day, because he lacked the nerve to veto it. If instead of affecting the interest of thousands, nay milions of people, it had merely affected the interest of some poor devil who had sought relief from Congress he would have sprung a veto on it quick enough Bah! Let the country hear no more of this man's courage. He has the courage of the bully and braggart only. He is always ready to jump

violated the law against soliciting campaign contributions from Government employees. That report gives him the alternative of snubbing the civil service commission ton, on the 14th of September. You and winking at a violation of the civil service law, for which he always professed to have such great respect, he has always carried an overstock of profession, or of dismissing his special protege from an office to which he should never have been appointed and probably never would have been had not the Senate refused to confirm his nomination to a diplomatic position. Taylor says ed to confirm his nomination to a diplomatic position. Taylor says he has no fear of dismissal. He has made Mr. Cleveland believe that as made Mr. Cleveland believe that as nearly all to day. Late vegetation seems to be inspired with a new ic league, an organization composed of Negroes who have been given offices and those who expect to be given office by this administration, he controls a large number of votes; hence its President, is doing an excellent

trois a large number of votes; hence his certainty of being protected. As a matter of fact those who should know do not believe that there are one thousand Negro democrats in the United States.

Representative Payne, of New York, one of the prominent republican members of the House committee on Ways and Means, closes a brief and interesting resume of this session of Congress with this pen picture that is bound to be recognized by all who have intelligently watched the doings of the democrats in Congress: "The leaders have been afraid to trust their followers. Never have rulers become more arroer have rulers become more arroe on Rules. Never have followers been more craven than the other ers been more craven than the other democrats in the House. So far as the leaders have followed the Reed rules, the House has been able to do business. But where the leaders have followed their own devices, and have sought to bind the minority have sought to bind the minority not only, but the majority, hand and foot, stifling all debate, they have absolutely prevented the House from passing just and wise laws, even if the House had the wisdon to do so. One word, incompetent, fitty characterizes this Congress. This iseline is widespread. It is well-voiced in the letter of President Cleveland to Mr. Wilson. There is no excuse for mistaking or misranis no excuse for mistaking or misrep-resenting the feeling and temper of the rank and file of the democracy. They are downcast under the assertions that their party falls in ability to manage the government. The President in the sentence quoted correctly sized up the situation.
Senator Hill contributes this state.

Senator Hill contributes this statement to democratic harmony in New York: "Of the Presidential nominations (for New York) since March 4, 1893, 90 per cent have been taken from that portion of the party known as "anti-snappers," against the protest of prominent democrats and against the recommendation of the regular organization of the party in the several localities; while 95 per in the several localities; while 95 per cent of the fourth class postmasters appointed have been taken from the same faction, the regular organizations being substantially unrecognized. There are many counties in the state where the men who officially and successfully conducted the campaign in 1892 have been wholly ignored, neither themselves nor their gnored, neither themselves nor their organizations securing a single first ir respective counties. These its and figures speak for themives and do not require any com-

Chairman Wilson, of the House Ways Means and Committee, proposes starting for Europe early next week, and the tongue of rumor says that he expects to bring back a big campaign fund to be spent in trying to get himself re-elected to the House. Whether this rumor is true carfeles I will not undertake to say or false I will not undertake to say or false I will not undertake to say, but, as Mr. Wilson was instrumental in getting tariff legislation through Congress that is going to put lots of money into European pockets at the expense of American working men, it is not unreasonable to suppose that some of the benefitted European manufacturers may be grateful enough to put up some grateful enough to put up some money to be used in trying to keep Mr. Wilson in Congress. Both he and Mr. Cleveland have promised to get more favors for European manufacturers if Congress continues to be democratic.

Congress will adjourn to-morrow, and its democratic memoers will have an opportunity to learn just what their constituents think of the blundering incapacity which has marked everything they have under-

all large cities there are a class of men and women who claim powers they do not possess. They have neither gifts, credentials, nor references. Surely the colored peaple are not se wanting in sense as to throw their time and money away on such. Dr. Shea refers to the Hon. Charles Miller, capitalist, 2481 Atlantic Avenue; the Hon. William Denmore, architect and builder, 47 Cleveland Avenue, and Mr. Fred. Lampe, grocer, 641 Fuiton street, Brooklyn. All have known him for the past seven years. He gives a free test of his power to all. The doctor has practiced five years in New Orleans, St. Louis, Memphis and Louisville; understands thoroughly the diseases, spells or influences the race is subject to. Brooklyn. Aug. 15, 1891.—This is to certify that I came to New York from Albar y. I was a stranger in a strange city at of work and out of money. I had so luck in anything I undertook. What to do, I did not know. A friend advised me to go and see Dr. Shea. I did. He told me the cause of my troubles; he took me in and treated me as a brother. Through him I got a good bles; he took me in and treated me as a brother. Through him I got a good position that very week. I had been to others; they took my money and did me no good. I bless the day I first met Dr. Shea. I would advise all in bad luck sick or in trouble, to go to him at once. Sincerely, Albert Ayers, 2007 Atlantic Ayenne.

Brooklyn, Aug. 15, 1891.—This letter is to certify that my husband had gone away and had been absent two years, I mourned for him night and day. I gave him up, as dead. Hearing of the wonderful things Dr. Shea was doing, I resolved to consult him. He told me that my husband was alive and well and where he was; told me he would come home and when. To myljoy all of it came true. He is home now, came back like one from the dead. Lalso wish to say that this month I lost \$250. I am a poor woman and I was most insane. I went to Dr. Shea and he told me I would find my money and to my in tense joy I did find it as he told me. I thank God there is a man so gifted in our midst that can help people and tell them what to do. Sincerely, Mrs. Barrett, 121 28rd street.
